The eligibility criteria will relate to the requirements of a given competition and will concern a qualitative and quantitative assessment of the candidate's qualifications, competences, experience and achievements.

### **ADDITIONAL INFORMATION**

- **The recruitment for the position concerns participation in the implementation of the research project entitled Natural and mixed convection in mono- and bidisperse porous media, financed by the National Science Center in Krakow, grant OPUS 27, project decision number DEC-2024/53/B/ST8/02699 of December 4, 2024, at the position of Post-doc.**  
**The project aims to provide experimental data that help to understand a heat transfer and fluid flow for Monodispersed porous media (MDPM) and Bidispersed porous media (BDPM) during natural and mixed convection. Various parameters are tested to create heat transfer characteristics in terms of Nusselt number in a function of Rayleigh number for various macro volume fraction, micro porosity, thermal conductivity ratio, and Richardson number. Moreover, the differences between attached and detached geometries will be researched and described.**
- The competition can be finalized without selection of the candidate.
- Winning the competition does not mean that the candidate will be employed. The final decision on employment is made by the rector.

- One can report any special needs related to the recruitment process (interview), resulting from disability, by sending such information to the e-mail address provided in the advertisement.
